

Requirements for one pager website

Opensource components to use:

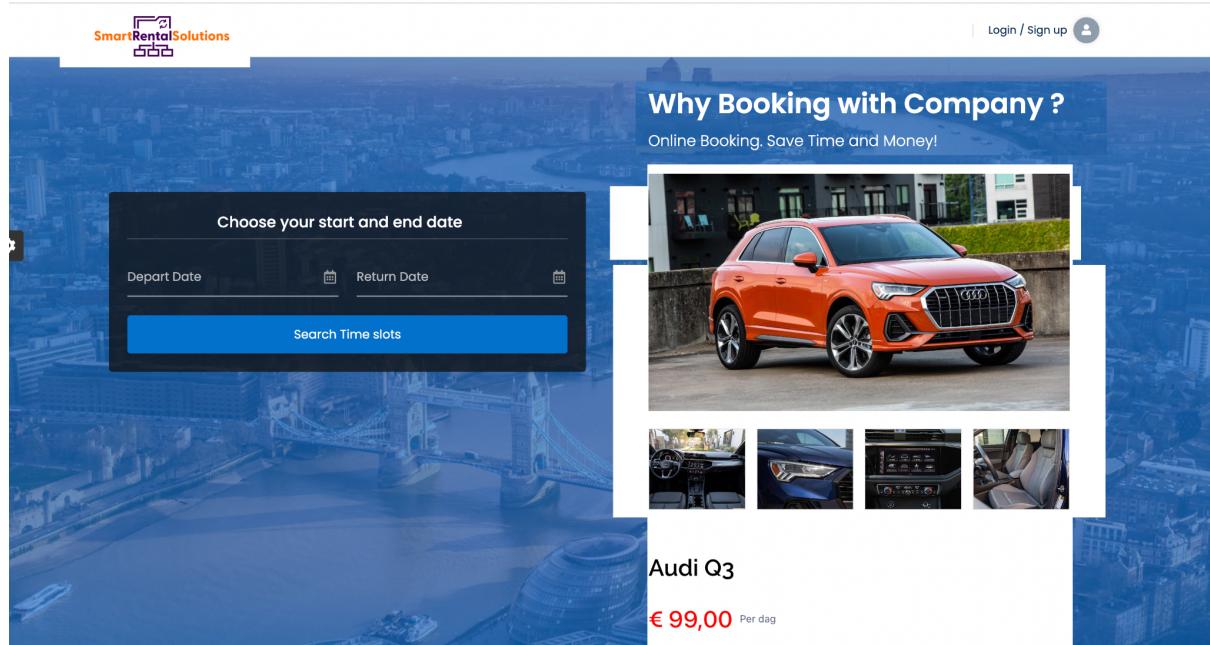

- reactJS framework (using React Hooks, no classes)
- ant.design (css atleast)
- Icons from <https://phosphoricons.com/>
- Responsive (fully working on mobile devices)
- HTML / CSS
- No logic for register or login needed.

● Header:

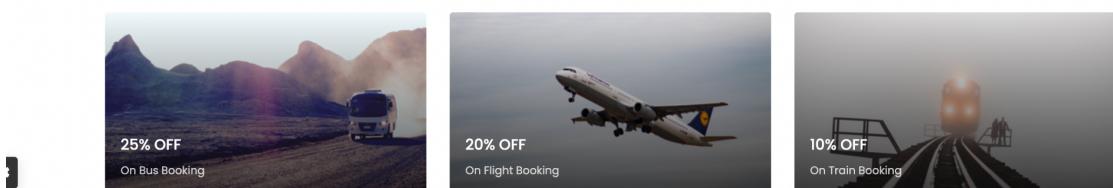

- Logo on the left side
- On the right only language / login / profile

● Hero:

- Image in the background parallax
- On the left a search window for start-date and end-date (also a more advanced option see later in document)
- On right side information about the product. Need to show images and tekst.

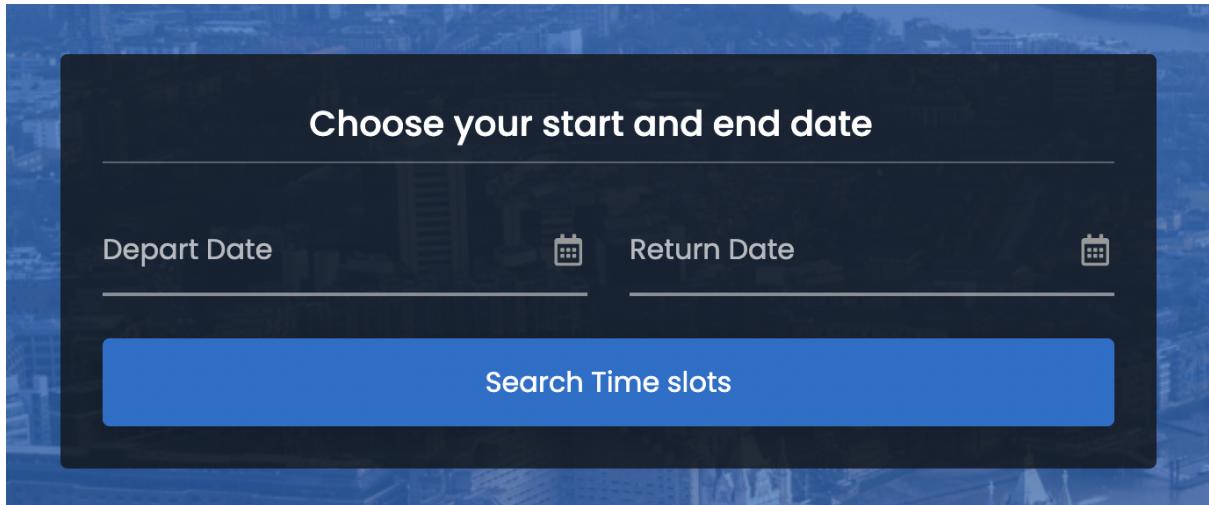

Below the hero, show also “other products”.

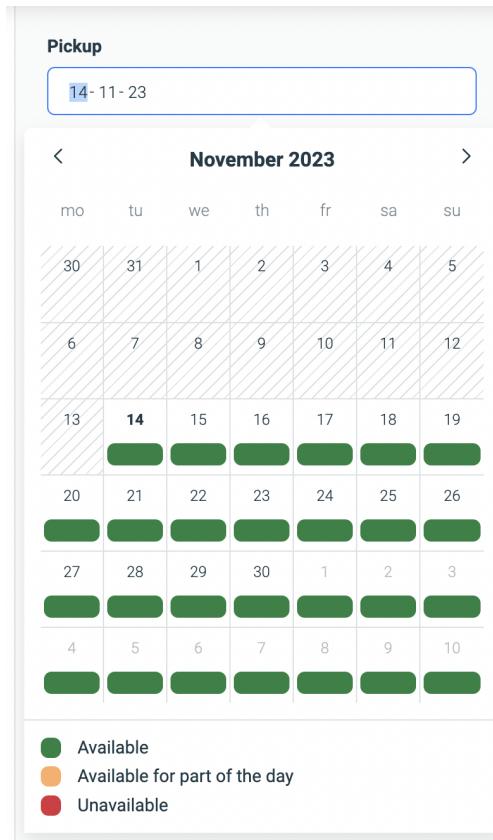

ReactJS calendar component.

We need two types of calendar components.

One basic view like:

When click on one of the date fields, I want to see if a day is available or not:

Live example for the above calendar from here:

<https://campers-kit.booqable.shop/carts/aa8a383c-fe3f-45ee-9aa8-619e17990e6d>

One more advanced calendar like below showing day's and time slots. Also grayed out a time slot or day if it has already booked.

november 2023							Wednesday
ZO	MA	DI	WO	DO	VR	ZA	November 15, 2023
			1	2	3	4	<div style="background-color: #f0f0f0;">12:30 AM</div>
5	6	7	8	9	10	11	<div style="background-color: #f0f0f0;">01:00 AM</div>
12	13	14	15	16	17	18	<div style="background-color: #f0f0f0;">01:30 AM</div>
